The IQAC meeting for the academic Year 2023-24 was held on 1st December 2023 through Google meet platform at https://meet.google.com/bth-wvao-htq from 11:30am to 1.00 pm.

Following agenda points were discussed-

1. Presentation on significant activities conducted during the previous academic year 2022-23.
2. Action taken report on suggestions and recommendations given during Governing Council Meeting held on 17th January 2023.
3. Action taken report on suggestions by LIC Committee visit held on 30th June 2023.
4. Plan of action for the ongoing and upcoming academic session.
5. Any other points with the permission of the Chair.

- Prof. Renuka, IQAC coordinator initiated the meeting by welcoming the members of IQAC and as per the agenda she presented the gist of various activities conducted at DSBA for students and faculty members during the previous academic session 22-2023.
- She then outlined the tremendous accomplishments that students and faculty members at DSBA have accomplished.
- Subsequently, she presented the recommendations and suggestions made by the IQAC, LIC, and GC members along with the corresponding action plan implemented with the purpose of strengthening and enhancing the institution's quality further.
- The members were briefed about the activities initiated and successfully accomplished by Internal Quality Assurance Cell (IQAC).
- Mr. Ganesh, IQAC member, acknowledged DSBA's accomplishments and expressed admiration to the staff, students, and principal for their remarkable efforts in implementing an array of activities and programmes aimed at the advancement of the student body and faculty team.
- He then presented his suggestions and recommendations for further improvement of institutional progress.

Suggestions by Mr. Ganesh, IQAC member

- To provide add on certifications to BCA students on 'Generative AI' as in today's tech-driven environment, understanding Generative AI improves problem-solving and creativity and enables an edge in sophisticated technology, making them more marketable. Learning Generative AI encourages innovation and prepares students to contribute to the fast-changing field of computer science.
- B.Com and BBA students to be provided with certification on 'Fundamentals of AI' that equipes them with AI technologies required for data-driven decision-making, improving their analytical and strategic skills. He added that AI skills are need of the hour to for young graduates to stay competitive and adaptive in the dynamic corporate world.
- For thorough understanding of stock markets functioning, exposing students to virtual trading investment platforms (for eg'Moneybhai.com)' is highly essential for commerce and management students, as these experiences provide practical insights, enabling students to grasp the intricacies of financial markets and hone their decision-making skills in investing.
- Mr. Ganesh recommended organising intra or intercollege 'Hackathons' on setting up Startup ecosystem through entrepreneurship club and conducting activities on areas of Fintech and technology.
- Introduction of minor subjects such as macroeconomics and geopolitics to equips students to gain knowledge on the intricate relationships of world economies, fostering a broader perspective on global affairs.
- The flip classroom concept to be encouraged among faculty as a teaching pedagogy that promotes interactive discussions and problem-solving skills. He added that this approach builds a student-centred learning environment and strengthens critical thinking abilities among students.

Suggestions given by Dr. Ravi Shankar, IQAC member (In person)

- Dr. Ravishankar, suggested "Gap Analysis" to identify any discrepancies, ensuring relevance, addressing trends, and meeting evolving needs and added that gap analysis enhances curriculum effectiveness, aligns courses with industry demands, preparing students comprehensively for future challenges.
- He added that to bridge identified gaps in curriculum, value-added programs must be offered to students to ensure that they gain practical knowledge that aligns with evolving demands, enhancing their overall educational experience.
- He then suggested the implementation of outcome-based education to define specific learning outcomes and aligning instructional methods to achieve them.

Discussion on the feasible action plan for implementation based on the suggestions and feedback of the members.

- Dr.Veena KN Principal, DSBA thanked the members for their valuable feedback and suggestions and assured that the institutions will definitely consider the introduction of certification course on Generative AI for students of all the programs and initiation Hackathons on fintech and technology for all the students.
- She mentioned that the institution would consider introducing short term courses on Geopolitics through available MOOC platforms like SWAYAM.
- She highlighted that Flip classroom concept is a regular practice at DSBA as a teaching pedagogy at and she assured the members that the practice will continue in the upcoming academic sessions as well.
- Department heads Prof. Roopashree, Prof. Sanjeev and Prof. Vasudeva Rao thanked Mr. Ganesh for his valuable suggestions and assured the members that suggestions will be duly considered for implementation based on feasibility and approval of the higher authority.
- Prof. Vasudeva Rao, head of BCA department proposed voted of thanks to all the members present for the meeting.
- Prof. Renuka Babladi, IQAC coordinator thanked everyone for their presence and concluded the meeting.
