

Industrial Visit to BAMUL

Coordinated by: Ms. Srilalitha T S

Event Date: 9th September 2025

Venue: BAMUL

Academic Year : 2025 – 26

Students visited **BAMUL (Bangalore Co-operative Milk Union)** as part of the institution's experiential learning initiative, gaining practical exposure to large-scale dairy processing and distribution operations. The visit provided insights into milk procurement, processing, quality testing, packaging, cold-chain management, storage, and distribution. Students also gained an understanding of food safety, hygiene standards, supply chain management, production efficiency, and cooperative business practices. The industrial exposure helped students connect theoretical concepts with real-world dairy industry operations while enhancing their practical knowledge, industry awareness, and understanding of quality-driven business processes.
